A Message from Our Founder

Dear Friend,

I was born and raised in Patna. Like you, I grew up watching Bihar's story – of resilience, of sacrifice, of families who worked three generations to own one piece of land. Vaidic Village is my humble answer to that enduring dream.

When I conceived this project, I did not begin with a spreadsheet. I began with a Vastu compass and the principles of Vedic living that our forefathers trusted for thousands of years. Every plot in Vaidic Village Phase 2 faces the right direction. Every road follows the cardinal axis. The temple stands in the Ishan kone – the northeast – where the divine always dwells.

Near AIIMS Patna, in Bihar's fastest-growing corridor, I have built not just a township but a legacy. An inheritance your children will thank you for. A land that will multiply in value as Bihar multiplies in glory.
